

Malibu cures Medicine for Humanity's fundraising needs

SUBMITTED BY MEDICINE FOR HUMANITY

On April 21, Malibu offered its overwhelming support for Medicine for Humanity's 23rd annual fundraiser.

The sold-out event celebrated the work that

Medicine for Humanity provides for women and mothers internationally. MFH is an international medical care and teaching organization. The organization believes that every woman should have the opportunity to be healed

from the devastating effects of childbirth injuries. MFH is grateful to Malibu for extending its hands and hearts to reach the woman we heal and the doctors the nonprofit trains in Mbarara, Uganda.
